PROTECTION
ÉCO ÉNERGIE VE

1.ELECTRIC MOTOR

Electric motor, generator, inverter, starter-generator, electric water pump, vehicle control module(VCM), power delivery module(PDM), DC-DC converter, electrical housing.(batteries excluded, electrical wiring excluded).

2.TRANSMISSION

Axle shaft assembly, rotor assembly, stator assembly, drive mode selector.

3.STEERING

rack and pinion steering valve assembly, sector shaft, power steering motor, steering column, main and intermediate steering shafts, steering rack bushings and mounts, (rack and pinion boots excluded), inner and outer tie rods.

4.WHEEL BEARINGS

Front and rear wheel bearings.

5.TRACTION

Constant velocity joints (boots excluded)

6.COOLING SYSTEM

Main and auxiliary water pumps, 3 and 4 way cooling valves, radiator, radiator cooling fan motor, radiator cooling fan relay, heater core.

7.SEALS, RINGS AND LIQUIDS

Coverage includes the necessary replacement of all seals, rings, liquids and lubricants only in the event of a mechanical breakdown of one of the covered components listed in the contract.

8.TOWING

Following a mechanical breakdown covered by this warranty contract on your vehicle, we will reimburse you an amount of fifty Canadian dollars (50\$ taxes included) for towing your vehicle to an authorized repair center.

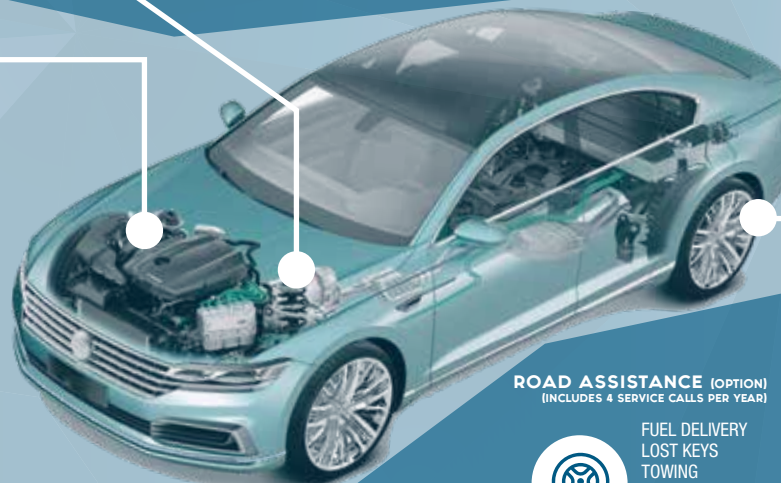

9.REPLACEMENT VEHICLE

You are eligible for the reimbursement of a rental vehicle 48 hours after the diagnosis of a mechanical breakdown covered by this contract. Following this delay, we will reimburse you a maximum amount of forty Canadian dollars (40\$ taxes included) per day for a maximum of five (5) days or a maximum total coverage of two hundred Canadian dollars (200\$ taxes included).

10.ELECTRICITY

Front and rear windshield wiper motors, intermittent windshield wiper, front and rear windshield washer pumps, HVAC blower motor, Ambient air temperature sensor, positive temperature coefficient (PTC) heater, electric door handle. Switches of the following: Front and rear windshield wipers, rear defroster, electric windows, HVAC system, turn signal, lights, door locks, electric seats, cruise control. Door locking control, cruise control actuator, electric window motors, electric seat adjustment motors and gears.

ROAD ASSISTANCE (OPTION) (INCLUDES 4 SERVICE CALLS PER YEAR)

FUEL DELIVERY
LOST KEYS
TOWING
WINCH
FLAT
BOOST

11.AIR CONDITIONING

Compressor, Compressor clutch and pulley, condenser, evaporator, expansion tube, High and low pressure pipes, accumulator, expansion valve, high and low pressure switch.

12.BRAKES

Master cylinder, vacuum brake booster, wheel cylinders, brake proportioning valve, front and rear disc brake calipers, rear back plates, parking brake self adjusting system and return springs, emergency brake cables and couplings. Are excluded: brake pads, brake rotors, brake drums, all electronic components.

13.ABS BRAKES

Brake accumulator, hydraulic pump, valvebodies, traction control switch, modulating brake valves.

MULTIMEDIA (OPTION)

LCD screen; RF modulator, Video, Digital video disc player, Power converter, Stereo system: Stereo, CD player, CD changer, Speakers. Navigation display unit, navigation control module. Bluetooth hands-free kit; Microphone and Speakers (manufacturer installed only). In order for this clause to be applicable, the option must have been purchased at the same time as the warranty contract.

14.SENSORS

Wheel ABS sensors, accelerometer sensor (G sensor), steering angle sensor, cooling system temperature sensor, evaporator temperature sensor, master cylinder pressure sensor.

15.MODULES

Transmission control module (TCM), transmission shifter control module, anti-lock brake system (ABS) module, electronic brake control module (EBCM), radiator cooling fan control module, heater control module.

16.SUSPENSION

Ball joints, upper and lower suspension control arms, radius arms and bushings, torsion bars, trailing arms and bushings, steering knuckle. (Are excluded: shock absorbers, suspension struts, air suspension components).

17.LODGING

A lodging allowance will be granted, for a hotel or a motel, not exceeding one hundred Canadian dollars (100\$ taxes included) per day for a maximum of five (5) days or five hundred Canadian dollars (500\$ taxes included) per repair. To be eligible for this allowance, the covered vehicle must be out of service for more than forty-eight hours (48H), the breakdown or mechanical failure must be covered by this warranty contract and must occur more than 250 kilometers from the address indicated on the contract. G.N must be notified within 10 days of any change of address, otherwise the lodging clause will no longer be valid.

18.ALIGNMENT

A maximum amount of one hundred and fifty Canadian dollars (\$150 taxes included) will be allocated at a GN authorised repair center if alignment is necessary following a mechanical repair covered by this plan.

HIGH TECH (OPTION)

LCD screen; RF modulator; Video, DVD player; Power converter; Stereo system: Stereo, CD player, CD changer, Speaker; USB plug; auxiliary plug; Navigation display unit; Navigation control module; Backup camera and sonar information system including collision warning, blind spot detection, park assist and adaptive cruise control sensors; lane departure warning system; Rain sensor. Hands-free Bluetooth set; Microphone and Speakers; Voice command control; Remote unlocking entry system; Heated and ventilated seat elements and switches; Head up display(HUD) module and switches. Software or programming updates are only covered when a covered part is replaced. All parts must have been installed by the manufacturer beforehand.

HIGH VOLTAGE BATTERY CAPACITY COVERAGE (OPTION)

The Lithium-Ion Polymer battery's (EV battery) capacity is covered for the duration of the contract for a 70% loss in capacity compared to initial capacity. This warranty contract covers necessary repairs to restore battery capacity to at least 70% of its original capacity. If possible, the EV battery components will be repaired or replaced and the original VE battery will be reinstalled on the vehicle. If necessary the EV battery will be replaced either with a new lithium-ion polymer battery or with a refurbished one. Any repair or replacement under this coverage of the lithium-ion polymer battery may not restore your lithium-ion battery to "like new" condition with the original 100% battery capacity. However the intervention will provide the vehicle with a battery with a capacity of at least 70% of the original battery capacity.
